result of the special weighing of mail throughout the United States in 74,684 postoffices from Oct. 3 to Nov. 6, 1899. The 175 first-class postoffices have been separately tabulated in the report. This is the first special weighing of mails since ten years ago, when under the direction of Postmaster General Wanamaker weighing was done for seven days. The figures obtained at that time have been found to be mis leading. The mail matter originating in the United States during the time of weighing amounted to 151,132,405 pounds, and it is estimated that upon this basis the total amount of mail carried during a year is 1,565,665,508 pounds. Revenue is derived from 40.57 per cent. of this, while 59.43 yields no revenue. Of the total 6.06 per cent. was first class, 25.19 second class. 2.09 second class free, 9.32 third and fourth class, 6.14 government free and 51.20 equipment. It was found that during the thirtyfive days New York city furnished by far the largest amount of mail-16,440,372 pounds-and Chicago the next largest quantity-9,678,207 pounds. Boston follows with 4,053,532; Philadelphia, 3,801,364; St Louis, 3,410,279, and Washington, 3,244,211 pounds. Other cities furnished the following quantities in pounds: San Prancisco, 1,123,184; Minneapolis, 1,017,773; St. Paul 897,869; Kansas City, 1,171,362; Cincinnati, 1,655,511; Atlanta, 456,108; Baltimore, 911,272; Cleveland, 766,807; Pittsburg, 852,810; Richmond, 216,423; Milwaukee, 733,912. The largest amount originating by States was in New York-23,029,466 pounds-followed by Illinois, with 13,335,061 pounds. Massachusetts furnished 6,416,443 pounds; Pennsylvania, 9,446,164; Missouri, 6,788,634, and a year 1,347,145,180 pounds of mail, or 86 per cent., is carried by railroads, the remainder-226,869,910 pounds-being local

Secretary Long made a statement to the of not building new ships in the governmet, namely, three armored cruisers of about 13,000 tons each, with the heaviest armor and most powerful ordnance; twelve gunboats of about 900 tons each; three protected cruisers of about 8,000 tons each. As to building warships in our navy yards, Mr. Long said they cost much more than those built under contract and took twice

as long to build them. Admiral Dewey suggested to the committee that it leave off the twelve gunboats and give three new battleships instead. He said the battleships would be more serviceable, as General Otis had just purchased fourteen gunboats and had turned them over to the navy. They were in very fair condition, and the admiral said that from his experience he thought they were just the vessels needed for service in the Philippines. He also took strong ground in favor sheathing warships. He said sheathed ships could run three times as long as ships unsheathed without being docked. The admiral stated that if the cruiser Charleston, which was lost on a reef in the Philippines, had been sheathed, it was his opinion that she might have been saved. As a reason for thinking this way he cited the fact that a British war vessel that was sheathed ran upon an unknown reef under circumstances similar to the Charleston and was saved by a sheathed bottom.

Special to the Indianapolis Journal. ROCKVILLE, Ind., Feb. 28.—As a result of Mr. Faris's withdrawal from the concressional race in the Fifth district, which has caused much surprise here, Parke county probably will furnish another candidate, besides Howard Maxwell, in the person of Henry Daniels, of Rockville. Like Mr. Maxwell, Mr. Daniels was formerly prosecuting attorney, and is one of the eading lawyers at the Parke county bar. He has been prominent in the councils of the party in the county and district, and has many friends. He is a brother of Edward Daniels, an Indianapolis lawyer.

BID OF ONE CENT.

Remarkable Tender for Shelby County Democratic Election Printing. Special to the Indianapolis Journal.

SHELBYVILLE, Ind., Feb. 28 .- The latest move in the Democratic factional conin the awarding of the contract for supplies for the primary to be held March 10. sealed and were opened this morning. The Jeffersonian, the new Democratic paper, bid \$70, while the Shelby Democrat bid 1 cent and was given the contract. Heretofore the printing expenses have been \$100. The political bitterness as the primary approaches grows more intense day by day. The candidates are being forced to express their position as to whether they belong to the Ray faction or the Hord faction. The voters are drawing lines sharply, and many are openly declaring that they will not support the nominees if they are of the opposite faction. Never since the campaign of 1882, when the 'Ragged Reubens" and the "Brussels Carpet" factions defeated the Democratic county ticket, has the same spirit controlled as that which exists in the county to-day. The Ray men, it is thought, control the county central committee in nearly every precinct, but it is believed that the revolt among the voters is general on account of the recent exposure of official crookedness. The indictment of the exofficials and Mr. Ray by the last grand jury is being used as a strong card by the candidates who are in favor of reform in the conduct of county business. Suit to Recover Fees Compromised. Special to the Indianapolis Journal.

JEFFERSONVILLE, Ind., Feb. 28 .- The actions of the city of Jeffersonville against A. H. Bamber, former city clerk, to recover fees to the amount of \$1,200 alleged to have been unlawfully retained have been compromised on the payment of \$286 by Bamber. The latter is deputy post-master and the actions were filed for political purposes. Bamber while serving as city clerk was authorized by the City Council to retain a certain percentage of fees collected on account of extra work imposed on him. This resolution was not repealed and Bamber continued to retain the fees until his term expired.
